Dear Mr Drasnin:

Fine, if you can work it out. And I must say that there's nobody I'd rather be associated with in such a project than Eric Sevareid. Years ago, I met him in Minneapilis -- at the Universit of Minnesota, in fact, and like him very much indeed. And I have followed his career with interest and admiration.

Yes, September or thereafter would be good. This summer we are to be in our hide-away in Vermont, which is far off the beaten track.

I should look forward with great pleasure to meeting you!

As an interjection -- What a wonderful human being Milton is!

Very sincerely yours,

Robert Penn Warren

PS The general topic that you suggest should be fruitful. I hope to God this country is in for a little self-scrutiny. It's time. And I am not referring to Watergate merely.
